Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner responded to the applicants' representative's telephone call on 4/22/2005 questioning the correctness of the double patenting rejection with US Patent 6,557,311. Examiner responded stating that the double patenting rejection was proper, since the examiner made it with US Patent 6,577,311 not US Patent 6,557,311. Applicants' representative agreed. Examiner also suggested that the applicants disclose all pending and patented applications that may be in double patenting with the instant application. Examiner suggested that a terminal disclaimer to be filed include all applications and patents that the applicants' feel to be in double patenting the instant application. Applicants' representative agreed.
